

Can you solve the puzzle?

Created by Crossword Compiler

CAN YOU SOLVE THE PUZZLE

You have been saddled with the task of tracking down your class mates for a school reunion.
By now many have moved away, got married and changed their surnames and you can barely remember their names.
The only way you can find them is by figuring out to which cities they have moved to and figuring out their names from there.

(Solve the cities from the state of New York first, shaded in yellow and the rest should be easy.)
